Student User Agreement for Technology Resources – Grades K-2

Instructions: Please sign and return this Agreement to Technology Services.

- Christian Academy School System is blessed with a significant amount of technology resources in our classrooms, media centers, and labs. It is essential for all users to be good stewards of what God has provided in the care and use of these resources.
- Students are responsible for good behavior on school computer networks, just as they are in a classroom. Access is a privilege - not a right. Parent or guardian permission is required.
- Network storage areas may be treated like school lockers. Administrators may review files and messages to maintain system integrity and ensure that users are using the system responsibly. Users should understand that files stored on district servers are not private.
- Administrators and/or teachers may use classroom management software, such as SynchronEyes™, to view and/or control student computer screens.
- During school hours, teachers will guide students toward appropriate Internet resources. Outside of school, families bear the same responsibility as they would when guiding their children with information sources such as books, periodicals, television, telephones, movies, radio, and other potentially offensive media.
- Access to the Internet will enable students to use thousands of libraries and databases. Although our Internet content is monitored, logged, and filtered by a Barracuda Web filter, no filter is 100% effective in blocking all objectionable content. Parents should be aware that material accessible via the Internet may contain content that is illegal, defamatory, inaccurate, or potentially offensive to some people.
- Before allowing access, Christian Academy School System requires each student and parent to read and agree to the Internet Safety and Acceptable Use Pledge provided below. The Pledge is provided to (1) outline the standards and rules and (2) serve as a discussion tool for parents, educators, and students.

Internet Safety and Acceptable Use Pledge – Grades K-2

1. I will turn off my computer monitor right away and tell my teacher if anything makes me feel scared, uncomfortable, or confused.
2. I will tell my parents or teacher if anyone online asks me for my name, address, or telephone number.
3. I will tell my parents or teacher if anyone online asks to meet me in person.
4. I will not use rude or mean language on the Internet.

Parents/Guardians – Complete to PERMIT Access to Technology Resources

As the parent or legal guardian of the student named above, I have read and discussed the Internet Safety and Acceptable Use Pledge with my student and will help him or her follow the commitments. I grant permission for the above named student to access technology resources, including the Internet, while at school. I understand that individuals and families may be held liable for violations of federal or state regulations and applicable laws. I understand that some material on the Internet may be objectionable, and I accept responsibility for setting standards for my student to follow when selecting, sharing, and exploring information and media.
